

## Overview

The HealthCo Lola Homecare Bed is a reliable bed offering quality of care, comfort, ease of use and aesthetic advantages.

The high-quality wooden side rails with metal pins (can be removed if required), otherwise are collapsible below the mattress level. They extend higher to achieve a safe mattress depth in accordance with entrapment regulations, giving comfort and reassurance for user and care staff.

Adjustable back rest, knee break and platform height is achieved through a simple touch button hand set.

### Optional extras include:

- Oak finish
- Lifting pole

### The HealthCo Lola Beds are compatible with the following mattress systems:

- HealthCo Supreme HCO600 (Overlay)
- HealthCo Royal HCO601 (Full replacement)
- HealthCo UTS® HCO602
- HealthCo Static Foam Mattress HCO603

All HealthCo siderails are a two-handed operation to provide added safety and operation by the care user. All beds are supplied with metal side rail fingers, as standard to prevent breakages and injuries.

## Features

- Safe Working Load 220kg (34 stone)
- Maximum user weight 185kg (29 stone)
