BED RAIL HEIGHT

**MUST BE
GREATER
THAN
220mm**

(From the top of an
uncompressed mattress
to the top rail)

As of April 2013, Government legislation states that any bed with siderails **MUST** comply to specific regulations. These regulations stipulate minimum measurements between the mattress and the siderails.

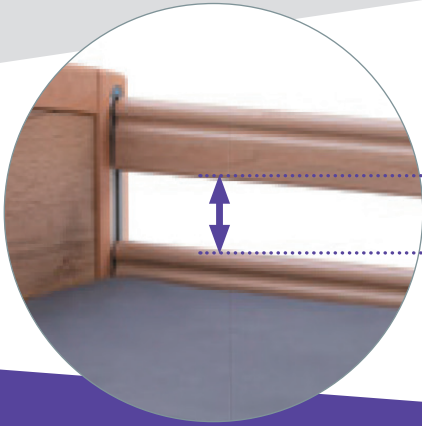

Please use this measuring tool as a guide. Following these measurements will guarantee that you will be compliant, and therefore legal.
